

SCRAPBOOKING

one month at a time

with Tami Taylor

November

A fact (from Wikipedia.org):

- Novem means nine in Latin and since you've followed along this year on our monthly journey you would be right to conclude that November was once the ninth month of the year. And since last month we studied scrapbooking these times at Masterful Scrapbooking – I'm going to put these two ideas together. Take a moment to look around and capture in a layout the names of things because in a few more decades some names will be faded memories (think Borders) and others will remain even if their locations and business has changed. (Did you know that Gap was once a record store that also sold jeans?)

Did you know?

November's birthstone is Topaz. Traditionally for the birthstone it is the yellow or orange topaz; which symbolizes friendship. I think most of us realize we wouldn't be anywhere today if it weren't for our friends and family. If you're extremely lucky those terms describe the same people. Let's celebrate our family who became friends or friends who became family by dedicating a layout to them.

By the Numbers:

Layouts finished: _____

Fall Color Tours: _____

Black Friday Deals: _____

Christmas Gifts Made: _____

Snowfalls: _____

Eggs Deviled: _____

NOVEMBER *favorites*

moment: _____

activity: _____

event: _____

thing: _____
